

STEPHEN FROST - CONSERVATIVE CANDIDATE
SUFFOLK COUNTY COUNCIL ELECTIONS 4th June 2009
MILDENHALL DIVISION

About Stephen

Stephen lives locally, in Lakenheath. He has been involved in local politics for many years, working and campaigning on the issues that affect our daily lives. He spent eight years serving the local community on the Parish Council. Having three children, all who attended College Heath Middle School and Mildenhall College of Technology, he has a very good understanding of local education and the needs of parents with school aged children.

Stephen was, for a number of years, Richard Spring's political agent, at one point working out of Mildenhall. He therefore has an excellent understanding of the area.

Stephen says "This election is about electing the right person to deal with the issues that we face within this area of the county. Employment is becoming ever more important, so working with the powers that be to encourage employers to come to Mildenhall needs to be a high priority. Development is a key issue in the area, but it must be sustainable, in the right place and good for the community. We should not allow Labour to concrete over our countryside without the necessary infrastructure. Above all we must protect the unique character of our town and villages.

"Mildenhall is an historic town, with much to be proud of. But as a growing town it also needs to retain its facilities. I fail to understand why Central government wish to close the Magistrate courts, not only is it false economy it is a snub to us all. I will fight tooth and nail to keep our court house open. A vibrant Mildenhall is essential for our villages. Barton Mills, Freckenham and Worlington share many of the same issues, adequate policing, speeding traffic to name but two".

Stephen's Priorities :-

I want to build on what has been achieved during the last 4 years :-

- Campaigning against Anti Social behaviour.
- Working with communities to reduce speeding and promote safe use of our roads.
- Press for improved public transport.
- Promote the area to encourage new businesses for greater employment opportunities.
